WHO WE ARE

**FAST MARINE
SERVICES**

We are an engineering-based Ship Repair and Ship Supply company from Istanbul which has more than 20 years experience.

Our core services include Technical Supply, Repair Services, Spare Part Supply, Shipyard Agency and Supervisory. We pride ourselves on our expertise in Propeller Shaft and Rudder Systems repair and overhaul, Energy Saving Devices, Mechanical Repairs, Hydraulic Repairs, Steel and Pipe Repairs, Boiler Repairs, Tank Level-Gauging Gas Detection, Fire Alarm systems, Odme, OWS, NG systems repair and certification, GMDSS Survey, VDR/S-VDR APT, Gyro Overhaul, Compass Adjustment, Radio Surveys, urgent afloat and port repairs, anode manufacturing, special product manufacturing and underwater services.

Additionally, we maintain strong relationships with all shipyards in Turkey, enabling us to secure urgent docking slots in Turkish or neighboring country shipyards. Fast Marine Services is also the Turkey representative for the famous Danish repair company MarineShaft®, MMG-Propeller and Energy Saving Devices from Germany, and the Turkey agency for MIKASA Industrial from Japan, Cetasol Energy Optimization from Sweden, Akrit Engineering from United Kingdom and UMSG from the Netherlands.

Our mission is to ensure complete client satisfaction by delivering high-quality products and services at reasonable prices and within the promised timeframe. Our prompt and personalized response has earned us a reputable position in the marine market, and we are committed to being the fastest, most qualified, and reliable marine service provider for all ship owners' needs.

VALUES

> VISION

Our vision is being the fastest, qualified and reliable marine service company, for all requirements of international shipping companies regardless of demand support scope, time and location.

> MISSION

- * Be client focused, positive, feasible, accurate, solution based,
- * Be reliable and friendly,
- * Serve timely and economically
- * Establish long term relations with every client
- * Keep continuous improvement
- * Respect to human rights, animal rights and environment

> GOALS

Aiming to provide high quality ship repair services with customer satisfaction and being a contact point for docking periods and assisting shipowners to prevent all kinds of troubles they may face.

A large, three-bladed ship's propeller is the central focus, suspended by cables. It is being worked on in a shipyard, with a red hull visible in the background. Two workers in hard hats are visible at the bottom, one near the propeller's base and another further back. The scene is filled with industrial equipment and materials.
